GREEN PEEL - HERBAL PEELING CLASSIC

During the herbal massage, the upper layers of the epidermis are removed, blood circulation, oxygen supply as well as metabolism are increased and regeneration processes are stimulated. This reduces the usual time for skin renewal from 28 days to 5 days. A new, fresh skin appears after the peeling process. The final Beauty Finish treatment provides the particularly receptive skin with nourishing ingredients.

This method can be performed with:

Sun damaged skin & wrinkles (for anti-aging prophylaxis) // Sagging body skin (abdominal wall, upper arms, thighs) // Some types of hyperpigmentation // Impure skin, sebum cysts // Scars & stretch marks (Striae) // Skin prone to premature formation of wrinkles

SAUNA

Our infrared sauna generates the same type of *heat that is naturally produced* by the sun and our bodies.

This heat can sink deep below the skin, producing a gentle warming inside of the body; It's like spending the day in the sun but without the UV rays!

This provides extensive health benefits, including pain relief, increased circulation, skin purification and muscle relaxation.

SAUNA 1/1

Promote healing and remove toxins with our infrared sauna.
